R15091908: IU-B-01531 BIOPRO 30 - Whole moderately toasted soft soybean powder

-Identification:

Country of origin: Serbia

Producer: FABRIKA PROTEINA I ULJA "BIOPROTEIN" A.D. - proizvodni section BIOPROTEIN
A.D., Nemanjina bb, Obrenovac, Srbija

Best before: 14.06.2016.

Net weight of delivered sample: 210 g
lot 250/15

Results of genetic testing

Analysis	Result	Reference data	Methods	
Testing of genetic modification [%]	< 0,05	max 0,9	JRC GMO Protocol ¹⁵⁹⁾	Real Time PCR

Analysis JRC GMO Protocol are within the flexible scope of accreditation.

MET 789 - Testing of genetic modification was performed by Real Time PCR approach:

-Example Specific to Roundup Ready soybeans modification (event-specific), with a detection limit of 0.05%

Source of reference values Law on Genetically Modified Organisms (Official Gazette of RS 41/2009), art.3.
